You may also need...

Worktop Bolts

Our worktop bolts measure 150mm in length and are zinc plated to prevent corrosion. Manufactured in the UK, these bolts are exceptional quality and will provide a strong and durable fix when installed correctly.

Three bolts will be required to secure each worktop joint.

ColorFill Worktop Joint Sealant

Designed for the installation of mitred worktop joints, it bonds the joint together, seals against water and domestic detergents and is also exactly colour matched to the worktop so making the finished joint almost invisible.

You can use ColorFill on Laminate worktops and flooring.

BESPOKE ENQUIRIES

Should you require anything different from the options offered, please do not hesitate to contact your supplier. (Minimum order quantities and pricing will apply)
